## **History of NACURH, Inc.**

The National Association of College and University Residence Halls, Inc. was founded at Iowa State University at the Midwest Dormitory Conference in 1954. The first meeting was organized as a result of a feeling, on the part of the Iowa State Residence Halls Government, that such an organization was needed to encourage the exchange of information and ideas. Four schools: Iowa State University, University of Colorado, University of Missouri, and University of Northern Iowa were in attendance at this first conference.

The following spring, the organization met on the campus of the University of Missouri. At this time, the name was changed to the Association of College and University Residence Halls. During the 1961 conference at Oklahoma State University, the Inter-Mountain Residence Hall association affiliated with ACURH. At this conference, the organization was renamed the National Association of College and University Residence Halls (NACURH). With this change, two regional organizations were created within NACURH: the Inter-Mountain (IACURH) and Midwest Affiliates (MACURH).

The organization continued to grow, and at the 1964 National Conference at the University of Denver, three (3) new regions were created: Pacific Coast (PACURH), North Atlantic (NAACURH), and south Atlantic (SAACURH). In 1968, the Midwest region was divided to form the Midwest (MACURH) and the Great Lakes Affiliates (GLACURH). In 1980, the Midwest region was divided again to form the Southwest (SWACURH) region. NACURH's current structure of eight regions came with the last regional split in 1990 when the North Atlantic divided into the Central Atlantic (CAACURH) and the North East Affiliates (NEACURH).

On November 16, 1971, NACURH became incorporated under the doctrines of the State of Oklahoma. At that time, regional associates became affiliates to NACURH, Inc. In February of 1972, NACURH designated blue and white as its organizational colors, as well as adopting an official logo. In 1997, NACURH was reorganized as a tax-exempt corporation, allowing for the organization to look into investment of contingency funds to increase long-term financial stability of the organization.

NACURH is a continually evolving organization committed to serving the needs and wants of member institutions. Countless initiatives have been taken during NACURH's history towards making life better for students living in the residence halls. Recent trends such as international expansion and utilizing technology to increase accessibility of information prove that NACURH will continue to serve schools well into the 21st century.

## History of GLACURH

The Great Lakes Affiliate of College and University Residence Halls is a student-run organization working to promote and improve student life on college and university campuses across the region, including Michigan, Ontario, Wisconsin, Illinois, and Indiana. This group is primarily focused on providing quality programming and activities for on-campus residents that will make their college experience a positive one.

GLACURH was formed in 1968 as part of the Midwest region at the 1968 MACURH Conference. The states now within GLACURH grew very large and succeeded from MACURH, forming its own region. There are eight regions in NACURH, stretching from the east coast, north to Canada, south to Mexico, and west to Australia. These eight regions function on their own, each holding a regional conference and a regional business meeting. Regional conferences are held in the late fall and regional business meetings held in the early spring. Each region elects its own board of directors as well as rewards member schools in their region. The director and associate director represent the region on the National Board of Directors, NBD.

GLACURH is an organization that helps the facilitation of ideas between schools. Through the organization we provide member schools with the resources for the exchange of information to improve their campus climate and develop strong leaders at their respective institutions. This is achieved through business meetings, informational materials and the annual conference, which serves to foster the exchange of ideas. These gatherings also allow students time to grow as leaders and individuals through programming and networking with member schools. GLACURH also helps schools generate program initiatives at their respective colleges and universities. Through a motivational and inspirational display of school spirit and a commitment to benefiting on-campus students, the conference encompasses the true essence of the organization. As an entity of NACURH, Inc. GLACURH strives to provide a diverse environment to build on the foundation created at the universities and colleges of conference delegates and National Communication Coordinators. GLACURH recognizes that the students comprising the membership of our organization are of different abilities, races, ethnicities, sexual orientations, religions, ages, genders, personal beliefs, and political affiliations. As such, GLACURH strives to be a truly representative body of a truly multicultural population and is committed to promoting an atmosphere conducive to embracing and celebrating individual differences and lifestyles. We accept the responsibility to act aggressively and proactively toward educating our membership. We strongly encourage schools to build conference delegations representative and inclusive of the diversity of the people of their individual campuses. Ultimately, we strive for an understanding, appreciation, and celebration of diversity.

---

The Regional Board of Directors works to carry out the functions of GLACURH together with the NCC's who represent their schools. All of this is to benefit the member schools, whose members comprise all of the residents at your institutions. It is GLACURH's goal to provide member and prospective schools throughout our region with the finest and most innovative tools to successfully communicate and partake in the GLACURH experience and to help create a support system for individual on-campus organizations in the region.
