

# *Short Bids Bidding Guide*

## *A Letter from the CO for Recognition and Service*

Hello all,

This year, we face the unusual challenge of finding the campus rhythm again after two years of being away from campus life in the traditional sense. As we move through the year with caution, most feel a difference in stress, time, and the many other factors contributing to our college experience. Though the region is assessing participation in bidding, we wanted to offer a unique bidding opportunity that reaches the majority of us. Short bids are bids that are shorter than the average bid. They are fun ways to highlight institutional and regional spirit and win polar points. The following pages of this document detail the individual bids and their award processes. We hope these short bids spark some creativity and prove enjoyable for you and your bidding committees. If you are interested in bidding for a short bid and do not know where to begin, email me at [gl\\_recognition@nacurh.org](mailto:gl_recognition@nacurh.org) with questions, concerns, or concepts.

Peace, Love, Polar Bears,

Ataia
